DATA SCIENTIST

I specialize in applying AI to solve business challenges and drive valuable outcomes. With experience leading remote projects, I bring strong skills in self-motivation, organization, and effective communication. I'm committed to continuous learning and am seeking a remote role where I can contribute to innovative, AI-driven strategies and collaborate with global teams to achieve impactful results.

PROFESSIONAL EXPERIENCE

Data Scientist Seeds   **Jan 2024 - Present**

Developed and implemented data-driven strategies to optimize Portfolio Strategy operations for AbInBev - Cervecería y Maltería Quilmes, enhancing customer engagement and sales. Utilized advanced analytics and machine learning models to forecast demand, personalize customer experiences, and improve supply chain efficiency.

Data Science Professor Technological Institute of Buenos Aires (ITBA)   **Mar 2024 - Present**

Currently teaching "Advanced Predictive Analysis," focusing on advanced techniques in Machine Learning and Deep Learning. My role involves helping students develop a deeper understanding of these AI methods and their practical applications in predictive analytics.

Tutored and provided guidance to Data Science students on their final capstone projects, fostering analytical skills and promoting best practices in research and data-driven decision-making.

Data Scientist Freelance   **Aug 2023 - Dec 2023**

Completed an AI-based image analysis project for wildlife conservation efforts. Employed Python, TensorFlow, and PyTorch to classify species, aiding biodiversity research. Collaborated with ecologists, aligning AI tools with conservation objectives.

Data Analyst Siemens Healthcare   **Aug 2022 - Jan 2023**

Set-up, maintenance, and ongoing development of Qlik dashboards. Supervised and mentored an intern throughout their tenure. Analysis of opportunities on new useful reports. Follow up and quality control on automated end-to-end reporting processes. Lead team follow-up meetings and reunions.

Automation and Data Analyst Intern Siemens Healthcare   **Oct 2021 - Aug 2022**

Set-up, maintenance and ongoing development of end-to-end automated reporting processes. Follow up and quality control on reported information to meet our standards. Build extraction, transformation and loading processes.

EDUCATION

Data Science Technological Institute of Buenos Aires (ITBA)   **Mar 2019 - Jul 2024**

Data Science Student Exchange Technical University of Munich (TUM)   **Feb 2023 - Aug 2023**

COURSES

Machine Learning Engineer Google Cloud Skill Boost   **Jan 2024**

Machine Learning (Advance Level) Coursera   **Dec 2023**

Cloud Computing Google Activate   **Dec 2023**

CS50's Introduction to Artificial Intelligence with Python Harvard X   **Sep 2023 - Oct 2023**

Data Science and Machine Learning Capstone Project IBM   **Jan 2023 - Feb 2023**

HARD SKILLS	SOFT SKILLS	LANGUAGES
Python, R, SQL & Java	Self Motivation & Organization	Spanish (Native)
Pytorch, Keras & Tensorflow	Strong Communication	English (C2)
Azure & AWS	Analytical Thinking	Portuguese (B1)
